Attention: Barry R. DeBoever
Branch Manager

Dear Mr. DeBoever:

Your letter of 22 July 1981 to Admiral B. R. Inman has been referred to my Staff. Please complete and return the enclosed Form 129, Bidder's Mailing List Application, along with capabilities brochures, to the following address:

Procurement Management Staff
Office of Logistics
Central Intelligence Agency
Washington, D.C. 20505

Upon receipt, this information will be routed to those Agency components most likely to have an interest in your area of expertise. If an interest does exist, you will be notified directly by the interested component(s).

Thank you for your interest in being of service to the Central Intelligence Agency.

Sincerely,

[Redacted Signature]

Chief
Procurement Management Staff
Office of Logistics

DDA —

Vice Admiral Bobby R. Inman
Deputy Director
Central Intelligence Agency
Washington, D. C. 20505

Dear Admiral Inman:

04M-2-2

The National Security Agency, for some 10 years, has relied upon Model 204 -- a proprietary computer software product of CCA -- to effectively manage the computerized data of A, B, S and W Groups, and Admin. Last month, T3, after a major technical and management evaluation, decided to greatly expand the Agency's already significant commitment to this technology (as a contact in T3 I would refer you to [redacted]).

Additionally, DIA is currently evaluating Model 204 and CCA's other technology for acquisition to solve some significant data management problems which they confront.

The purpose of this letter is to request your assistance in identifying the appropriate contact within CIA who could critically evaluate Model 204's capabilities. Unfortunately, we have not been able to gain access to Agency personnel. I firmly believe that Model 204 can be of major significance to your on-line, ad hoc analysis of computerized data.

I look forward to hearing from you and to being of service to the Agency.

Sincerely yours,

Larry R. DeBoever
Branch Manager
